Parent Participation

Tots of Fun Toddling - 2 Years

Teachers and parents will work together to introduce key concepts such as taking turns, sharing, listening and following directions. Our carefully designed Aerials activities will capture your child's imagination while developing gross motor skills and early gymnastics activities.

SuperParents 2 - 3 Years

Our 45 minute 'SuperParent' child & parent class introduces children to the Aerials' environment. Children use mats, balls, parachutes, trampolines and more to discover the world around them, developing fundamental movement and problem-solving skills along the way.

Tumble Time 6 months to 3 years

Come play & explore with us at Tumble Time! At Tumble Time, you and your child (and your friends) will have full use of our baby gym & equipment in a non-structured, come and go as you like, setting. What to expect at Tumble Time:

- * Developmentally appropriate activities available
- * A great opportunity for your child to explore
- * All children must be supervised by an adult

GymKids pre school 3 - 4 - 5 years old

Aerials 3 - 4 - 5 year-old program is a 55 minute class for boys and girls. We combine fundamental gymnastics skills and FUN to enable students to develop confidence and self-esteem. The GymKids program provides a balanced lesson plan of gross motor skills, fitness, coordination, flexibility, strength and muscle development while learning the foundations of multiple sports at a young age.

Fun • Independence • Challenge

Fun Children learn best when they are having FUN! Running, skipping, spinning, and going upside-down are more than just fine activities, they connect neurons for later academic success.

Independence No parents here! In order to encourage your child's growing independence, they will attend class without parents.

Challenge Our philosophy has been the same for over 40 years. Aerials' programs build confidence through success challenge. We believe that small success / challenges build confidence. That new-found confidence leads to bigger successes and an even higher level of confidence. Through this progressive "success - confidence - success" method, we help children understand how to set realistic goals and then achieve them.

School Age 1&2 5 + years old

Class begins with a vigorous warm up and stretch time and includes forward and backward rolls, basic jumps and locomotor skills for tumbling. On trampoline, correct bouncing and stopping, seat drops, front drops, back drops, jumps in different positions, half and full turns are taught. On apparatus, students will learn beginning support and suspension positions, the different hand grips that are used, and some beginning mounts and dismounts as well as correct landing technique.

Children with advanced skills, by evaluation, work on all Olympic events and trampoline for a well-rounded gymnastics experience. Skills include beginning swing movements, casts and glides, control and strength in handstands, cartwheels, roundoffs, development of flexibility needed for tumbling, and beginning of front and back handsprings.

Lil'Ninja &

Ninja Zone 4 - 11 years

Lil Ninja's and Ninja Zone, A program that is skill based, fast-paced and geared just for little boys and girls on energy overload!

Our Ninja program will combine military style obstacle courses to develop strength and speed, gymnastics tumbling, and 'Ninja' style moves just like you see in a video game or movie!

**I
WANT
YOU!**

Sure it's been a few years and a bunch of kids later, but you still have it.

Maybe you played sports as a kid. Maybe you were a teacher before the kids came along and had to stop working full time. Maybe you remember the teacher that said just the right thing, just the right way, and it clicked for you. Maybe you're the one who needs to join the Aerials' team.

Take it from a guy who was as low on the athletic ability pole as you could be. But I loved to teach kids and watch the excitement in their faces when they learned something new. You know, when they say, "I DID IT!"

**Former athletes
teachers
gymnasts
dancers
fitness buffs
sports fans
and
active parents.**

**"Great Job!" "YOU did It!"
"WOW!" "That was AWESOME!"**
This is the common language in our facility. This is the magic that is Aerials!

Sports changed my life. It gave me opportunities I would never have had otherwise. World travel, Olympic competition, meeting and sharing with every strata of life, waking up every day loving what I do and being able to change young lives for the better along the way. Being a "Difference Maker."

That's you. Somewhere inside you think, "I can make a difference!"

I am always looking for "Difference Makers." One day a week, a few hours each time. Learn what we do and how we do it.

"But I don't know anything about this stuff" you're thinking. Welcome, you're in good company. A young boy in the streets of Philly who was not skilled in gymnastics but enjoyed being in the gym. A friend encouraged him to get involved at the local gym club who needed help. "You're a great teacher," the friend said. One thing led to another and not so many years later, he was standing by his athletes at the 1984 Olympic Games. Hey wait, That's Me! I could go on, but you get the idea.

Think about it. Get involved.
Email us today.

Be a "Difference Maker." I look forward to hearing from you.

Private Instruction Kids and Adults

We believe that champions are not only the ones who come in first, but also those who achieve their goals, regardless of the level. Experience has proven that personal instruction is instrumental in developing skill levels and confidence, and has often been the deciding factor in the careers of successful athletes. The Aerials' staff has both the knowledge and experience to offer a wide variety of instruction that is a benefit to athletes and coaches.

"Knowing the proper technique will: make the skills much easier, give athletes the ability to progress more rapidly, and allow them to learn harder skills safely in the future"

Rick Palumbo, Aerials Gymnastics

Our intention is not to replace existing instruction but to augment the instruction each athlete already receives. We are fully prepared to customize each session to meet the specific needs of each athlete.
